

Ambrositsch Rakete Roter Gemischter Satz

THE FACTS

COUNTRY: Austria

REGION: Vienna

APPELLATION: Vienna

THE STORY

Ambrositsch farms a total of four hectares —three on the right side of the Danube and one hectare on the left bank— in ten different parcels. Each vineyard is unique, with a distinctive terroir and microclimate. Jutta farms each organically, but does not have certification. Ambrositsch says that the biggest threat to the vineyards is hail and white boars that live in the surrounding forests and using conventional products will not help against either!
