perfection.

ALCOHOL BY VOLUME: 12.0%

AGING: 3 months on the lees in stainless steel

## THE STORY

Stellar Winery is one of South Africa's top producers of organic, fair trade wines. Situated just outside the Namaqualand town of Vredendal, the cellar processes grapes from farms stretching from Bulshoek Dam in the south to the cool climate vineyards of Koekenaap, close to the mouth of the Olifants River on South Africa's west coast. The uniqueness of Namaqualand infuses our business and our product. Glorious carpets of spring flowers, hot sunny summer days, cold nights with an awe-inspiring canopy of stars overhead and quirky, straight-talking people are what this region of South Africa's Western Cape Province is all about.

PHILOSOPHY: To produce the best possible value range of additive free wines in the most sustainable methods available. Recycled light weight glass and craft packaging materials.
