THE STORY

Josep Mata Capellades founded Cavas Recaredo in 1924, naming the domaine in honor of his father, Recaredo Mata Figueres. Josep Mata Capellades built the cellars in his house, in the historic centre of Sant Sadurní d'Anoia. Parts of the cellars are now over 80 years old and have been conserved in their original form. Recaredo is a pioneer in the production of totally dry cava, in working with oak barrels and in longer-aged cava. Cavas Recaredo is currently managed by Josep and Antoni Mata Casanovas, the sons of its founder, with Ton Mata actively involved and representing the succeeding generation. Effectively, Can Recaredo, as the domaine is known, is a deeply traditional producer of the finest Cavas available in the market.
