THE STORY

Above all, Louise Brison is a family story of technical know-how and human relations over 4 generations. In 1910, Louise Brison eked out a living on a few acres of vines at a time when winemaking was not very lucrative. Thanks to her tenacity, the future generations were able to continue her work and the estate took on a new direction in 1977 with Francis BRULEZ, who began producing vintage Champagnes aged in oak barrels. His daughter Delphine BRULEZ carries on the family tradition, building her bridge between the past and the future.
