THE STORY

Hanabi is a lager brewing project rooted in a winemaking background and a passion for hands-on craftsmanship. Focused on what it calls grain-forward lager, Hanabi takes a distinct approach—using lager brewing as a method to highlight the natural flavors of grains rather than emphasizing hops or malting alone. By designing processes that let grain character shine, Hanabi creates beers that are refreshing yet layered, marked by balance, elegance, and subtle complexity. Working with heritage, heirloom, and select modern barley varieties, Hanabi explores the expressive potential of grain, offering a refined take on lager that celebrates depth, drinkability, and thoughtful craft.
